Profile

I'm a motivated and adaptable individual with a strong ability to work with different software and hardware tools in fast-paced environments. I enjoy collaborating with teams to create innovative solutions that focus on the user experience. As a self-taught developer, I have skills in both frontend and backend technologies. I'm excited to start my career as a Software Engineering Intern or UI/UX Engineer, and contribute my skills to an organization that values creativity, innovation, and teamwork.

Education

University of Ruhuna
Bachelor of Computer Science
📅 Expected Graduation, 2026
